

22 JUNE 2022

FDA Food Contact Compliance Statement:

Teflex

NOTE: This statement is made on the information provided to us by the material supplier and corresponds with our actual knowledge. BFM® fitting uses the PTFE material to manufacture our Teflex connectors, however, we cannot guarantee the suitability of the material for any given application and assume no liability in connection with the information provided below.

Our BFM® Teflex connectors are made from a 100% woven PTFE material which meets with the compositional requirements of the following FDA regulations for textiles used in the processing of foods or in food contact:

Section No:	Section Title:
CFR21, part 177.1632	Poly (phenyleneterephthalamide) resins
CFR21, part 178.3297	Colorants for polymers

If you need further information on the safety of our products, please contact us.
